

MOBILE SURGI-STRETCHER

HYDRAULIC UNITS FOR OPHTHALMOLOGY

578 SURGI-STRETCHER SERIES

The Surgi-Stretcher Series is designed as a mobile surgical platform for EYE/ENT and plastic surgery procedures.

VERSATILITY:

- Articulating head piece with dual operating knobs allow infinite adjustability and precise microscopic movement of the head section
- Designed with a low-profile head piece allowing site access for both superior (over brow) and lateral (side approach) procedures

STANDARD FEATURES:

- Four wheel brake and steer caster system operable from all four corners
- Easy to clean thermoformed base cover with O2 tank holder and ample storage space
- 3-Stage Telescoping I.V. pole [permanently mounted at foot]
- Foot-end hand crank controlled backrest and leg flex
- Stainless steel Retracto® Side Rails with rail caps
- Dual side hydraulic foot pedal controls
 - Height Adjustment
 - Trendelenburg Positioning
- Comfort mattress and head pad
- Dual operating control knobs
- Easy rolling casters
- Low profile articulating head piece

Microscopic articulation of the head piece is achieved by rotating the control knobs to raise/lower the patient's forehead or chin.
