Company Message

Hayden Medical is the source for high quality surgical instruments at reasonable prices. Why buy from the last supplier who charged your hospital, office or clinic a premium, when you can get your best deal right here with Hayden Medical. Save money today by purchasing from Hayden Medical for all of your stainless instrument, pessary, LLETZ, surgery instruments and endoscopy needs. We can also personalize your instruments with our laser marking system. With over 50 years of combined surgical instrument experience, we know how to make your budget dollars go further. We can also chase down your hard to find items and take the guesswork out of your day. High

quality instrumentation, great service and affordable pricing is our specialty. Please give us a try and see for yourself, firsthand, how helpful and cost effective we can be.

RETURNED GOODS POLICY

All returns must be accompanied by a Returned Goods Authorization number, available by calling our Customer Service Department.

The following information is needed to request authorization for a return.

- Reason for return
- Date of purchase
- Invoice or PO number
- Product number and size
- Quantity to return

All authorized returns must be made within thirty (30) days of the invoice date and accompanied by the appropriate purchase order number and Returned Goods Authorization number.

Allowable schedule for authorized return.

- Products processed in error by Hayden Medical, Inc. will be credited in full
- Defective product will be credited in full
- Unless defective or shipped in error, any return accepted is subject to up to a 25% restocking fee (minimum of \$10.00)

- All returned items are subject to Hayden Medical, Inc. inspection and acceptance
- Product must be shipped prepaid

Non-returnable, other than for manufacturing defect.

- Engraved instruments or instruments etched or labeled by the hospital
- Products damaged beyond repair or refurbishment or not in saleable condition
- Instruments returned more than thirty (30) days after invoice date
- Custom, laser marked, special or modified items
- Disposable items and Pessaries

Used products must be returned sterile wrapped or they will not be accepted.

BIOPSY FORCEPS

TISCHLER

Most common cervical biopsy forceps. Industry standard for colposcopy procedures.

Model	Length	Bite
300-108	8"	3mm x 7mm

★ 300-110 10" 3mm x 7mm

BABY TISCHLER

Micro version of the Tischler biopsy forceps. Smaller sample size, less patient discomfort.

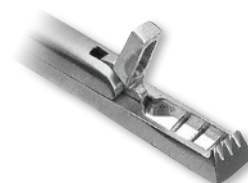

Model	Length	Bite
300-008	8"	2mm x 4mm

★ 300-010 10" 2mm x 4mm

Hayden Medical Cervical Biopsy Forceps are made of high-quality German stainless steel to ensure a consistent sample biopsy. An integrated stop guard in the cutting part of the forceps prevents the sample from being crushed or damaged. Cervical biopsy forceps have gold handles and a locking handle to protect the cutting edges during sterile processing, transport and procedure setup. Micro or "Baby" patterns are available for a smaller, but still viable sample size.

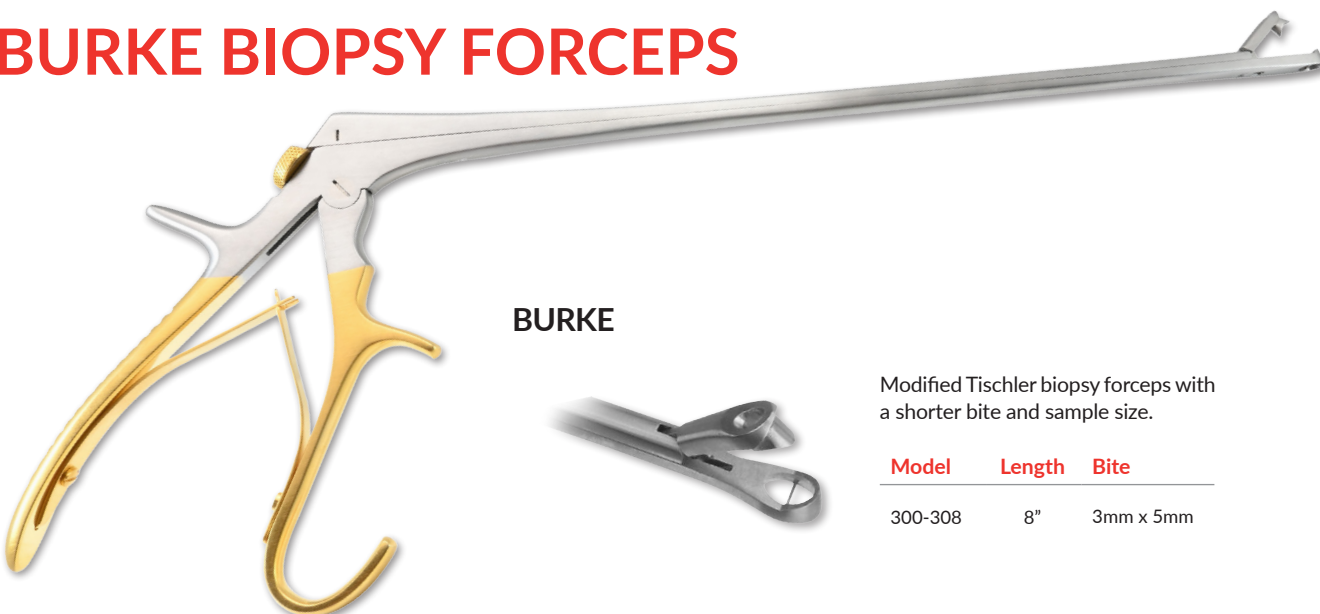

KEVORKIAN

Similar to the Tischler biopsy forceps. Teeth on bottom jaw for grip.

Model	Length	Bite
300-208	8"	3mm x 6mm
300-210	10"	3mm x 6mm

BURKE BIOPSY FORCEPS

BURKE

Modified Tischler biopsy forceps with a shorter bite and sample size.

Model	Length	Bite
300-308	8"	3mm x 5mm

2 MM BIOPSY PUNCH

CUSTOM MARKING

Ask about custom marking your instruments to help better identify the correct clinic, minimize loss and ultimately save money.

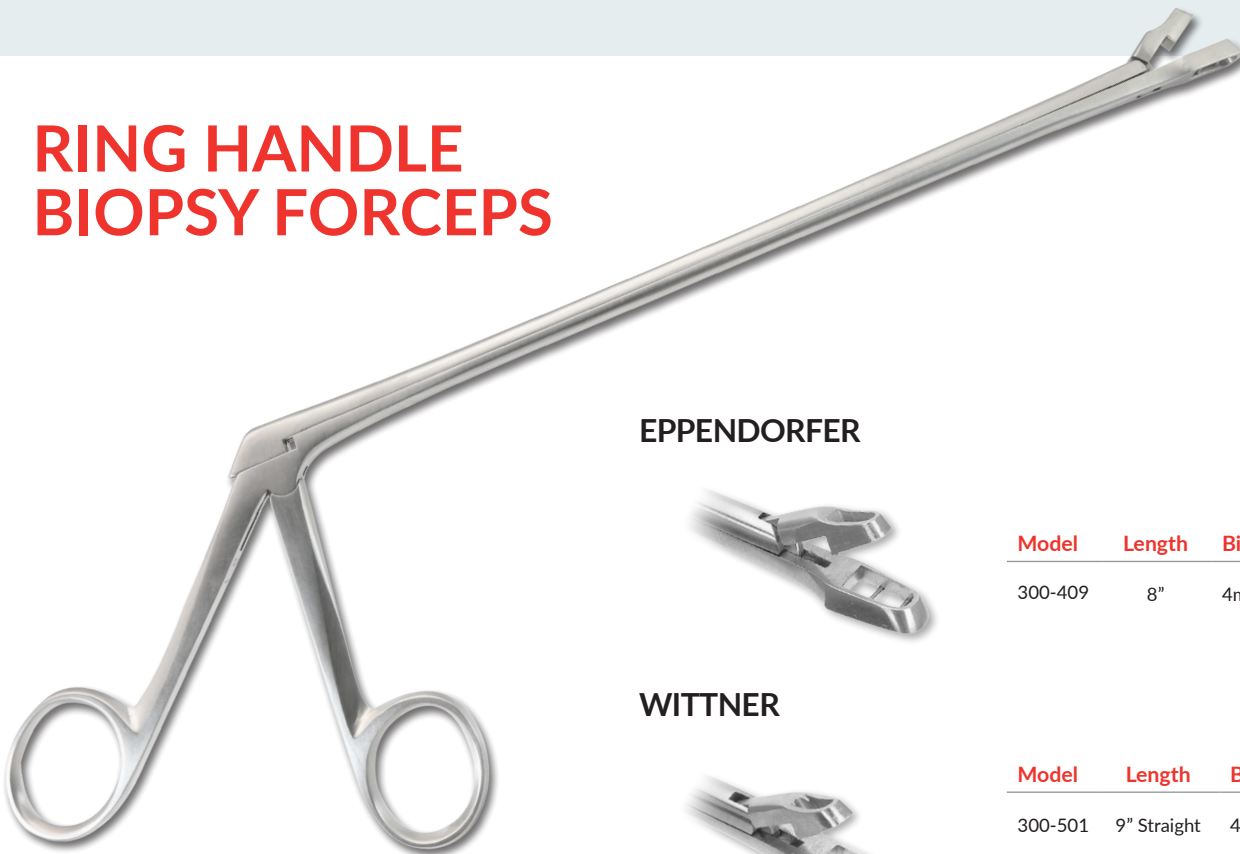

JACKSON STYLE 2MM CUP BIOPSY

Hayden Medical's Jackson Style Biopsy Forceps with 2mm cup biopsy are commonly used in clinic settings. The small biopsy reduces patient discomfort, but still produces a viable sample for testing. Two lengths are available.

Model	Length	Bite
★ 300-590	8-3/4" (23cm)	2mm
300-590-12	11-3/4" (30cm)	2mm

RING HANDLE BIOPSY FORCEPS

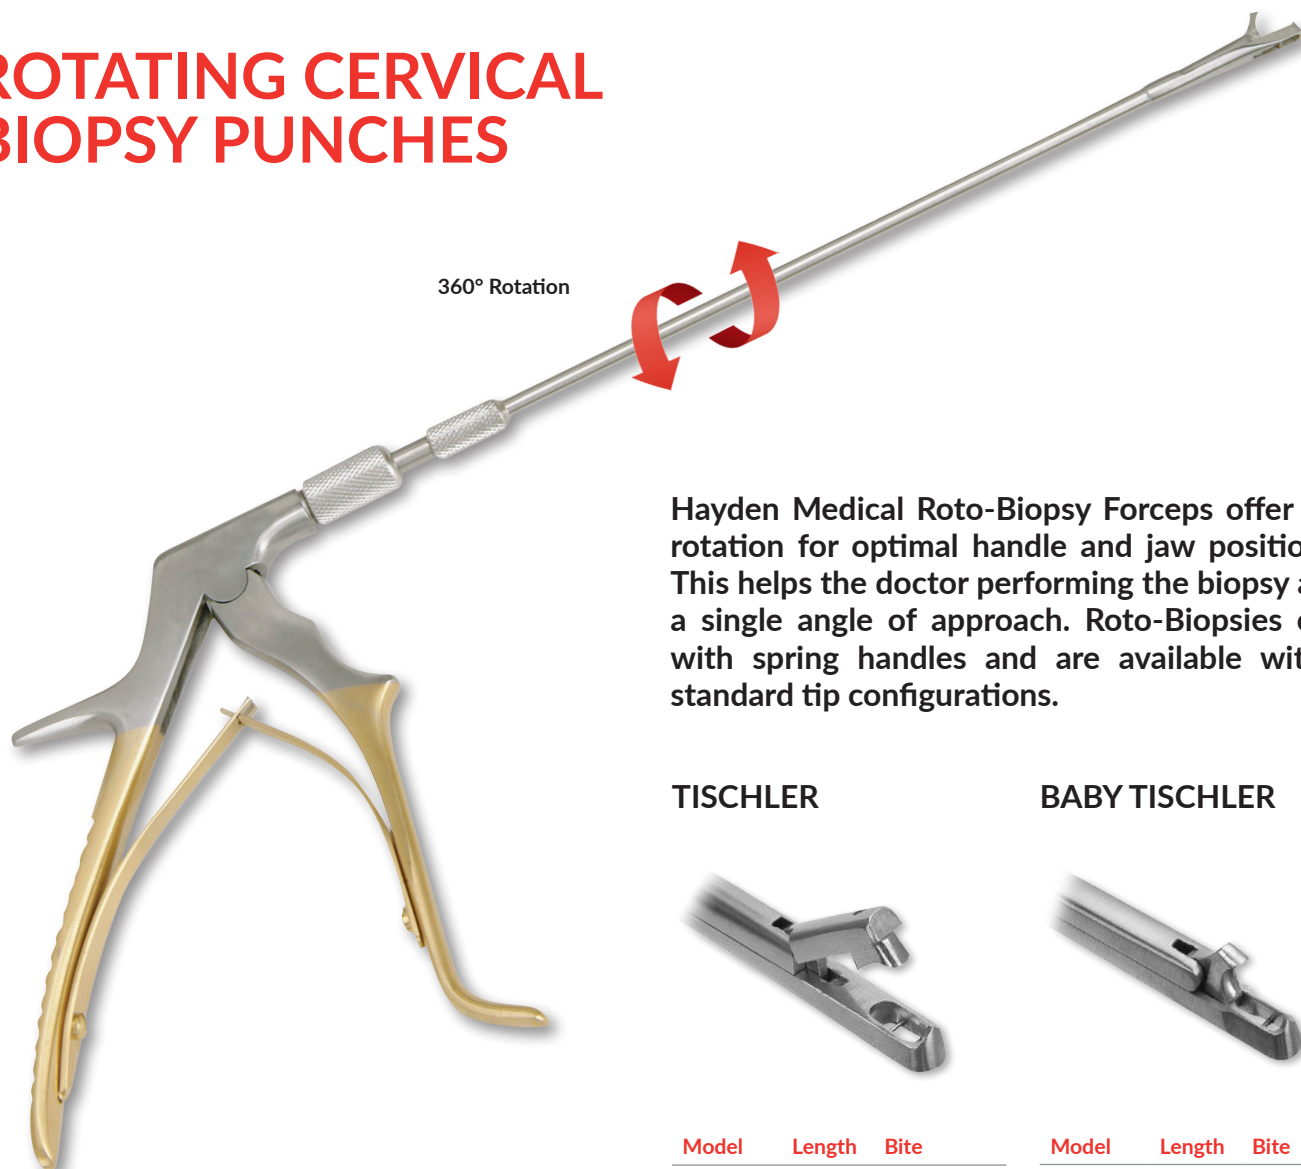

EPPENDORFER

Model	Length	Bite
300-409	8"	4mm x 8mm

WITTNER

Model	Length	Bite
300-501	9" Straight	4mm x 8mm
300-505	9" Angled	4mm x 8mm

ROTATING CERVICAL BIOPSY PUNCHES

Hayden Medical Roto-Biopsy Forceps offer 360° rotation for optimal handle and jaw positioning. This helps the doctor performing the biopsy avoid a single angle of approach. Roto-Biopsies come with spring handles and are available with all standard tip configurations.

TISCHLER

BABY TISCHLER

Model	Length	Bite	Model	Length	Bite

RAINBOW CERVICAL BIOPSY

Titanium Rainbow TiO coating on Hayden Rainbow Tischler Biopsy Forceps and Kevorkian curettes make these instruments harder than ordinary stainless steel. The cutting edges will stay sharper longer.

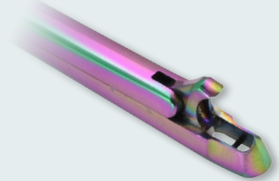

RAINBOW TISCHLER

Most common cervical biopsy forceps. Industry standard for colposcopy procedures.

Model	Length	Bite
300-108T	8"	3mm x 7mm

★ 300-110T 10" 3mm x 7mm

300-008T	8"	2mm x 4mm

★ 300-010T 10" 2mm x 4mm

RAINBOW KEVORKIAN ENDOCERVICAL CURETTES

WITH BASKET

Standard curette with basket to better retain samples upon removal.

Model	Description
295-401T	11-3/4", Rigid

WITHOUT BASKET

Standard endometrial curettage pattern.

Model	Description
295-402T	11-3/4", Rigid

KEVORKIAN ENDOCERVICAL CURETTES

WITH BASKET

WITHOUT BASKET

MINI

Standard curette with basket to better retain samples upon removal.

Standard pattern.

Micro version of our most popular curette for a smaller sample size.

Model	Description
★295-401	11-3/4", Rigid
295-403	11-3/4", Malleable

Model	Description
★295-402	11-3/4", Rigid
295-405	11-3/4", Malleable

Model	Description
295-404	11-3/4", Rigid

DISPOSABLE ENDOMETRIAL SAMPLERS

PREFERRED CURETTE

The Preferred Curette is used to obtain a sample of the mucosal lining for histological study in cancer screening, endometrial dating, or bacterial culturing.

Model	Description
★295-480	Preferred Curette 3.0mm Dia., Box/25

CURETTE WITH SYRINGE

This Randall-type cutting edge curette is packaged with a twist-and-lock syringe. Designed to obtain uterine samples of endometrial tissue for histological study.

Model	Description
295-495	Curette with Syringe 3.0mm Dia., Box/25

ENDOMETRIAL & UTERINE CURETTES

NOVAK ENDOMETRIAL CURETTE

Suction curette with teeth for sample collection.

Model	Description
295-451	1mm
★295-452	2mm
295-453	3mm
295-454	4mm

SIMS UTERINE CURETTE

Standard sharp uterine curette with multiple sizes. 11" malleable shaft.

Model	Description	Model	Description
295-609	#00 (3mm)	295-613	#3 (11mm)
295-610	#0 (5mm)	295-614	#4 (13mm)
295-611	#1 (7mm)	295-615	#5 (15mm)
295-612	#2 (9mm)	295-616	#6 (17mm)

KOGAN ENDOCERVICAL SPECULA

WITH RATCHET

Ratchet allows for easy dilation of the cervical canal.

Model	Description
★ 295-502	3mm Narrow Tip, 10-3/4"
295-501	5mm Standard Tip, 10-3/4"

WITH SET SCREW

Set screw allows for precise dilation of the cervical canal.

Model	Description
295-512	3mm Narrow Tip, 10-3/4"
295-509	5mm Standard Tip, 10-3/4"

NON-LOCKING

Allows for immediate adjustment of specula.

Model	Description
295-504	3mm Narrow Tip, 10-3/4"
295-503	5mm Standard Tip, 10-3/4"

Endocervical specula are useful for viewing the distal endocervical canal. Long blades help to insert deeper into the cervix and retract more tissue for a better field of view, or to more easily visualize cervical polyps.

NARROW TIP

Useful in nulliparous or small women, post menopausal patients or those with a stenotic os. 3mm tip.

STANDARD TIP

Useful on multiparous women. 5mm tip.

CERVICAL HOOKS

IRIS

EMMETT

TENACULA

BRAUN

Square ended forceps for cervical grasping and stabilization.

SCHROEDER

Round ended forceps for cervical grasping and stabilization.

POZZI-PALMER

Finer ended version of the round-tipped Schroeder Tenaculum.

ATRAUMATIC

Designed to hold tissue without breaking the surface of the tissue.

Model	Description	Model	Description	Model	Description	Model	Description
★325-070	Square Pincers	★325-060	Rounded Pincers	325-055	Less Traumatic	325-075	Atraumatic

CERVICAL & UTERINE FORCEPS

FOERSTER SPONGE FORCEPS

Foerster sponge forceps have serrated oval tips and are used to hold a sponge or gauze during procedures. The long shaft length facilitates easier access to the cervix while the ratchet handles ensure a stable and firm grip on a sponge or gauze.

BOZEMAN UTERINE FORCEPS

Bozeman Uterine Forceps have a double-curved shaft for better instrument tip visualization and a universal grasping jaw. Bozeman forceps can grasp gauze, sponges, manipulate tissue and be used as an extra-long hemostat.

Model	Description	Model	Description

140-610	9-1/2", Curved	★140-622	10-1/4", Double Curved

RANDALL FORCEPS

Used for grasping uterine polyps during curettage.

ALLIS TISSUE FORCEPS

Allis tissue forceps with 5x6 teeth ensure an atraumatic grip on tissue during colposcopy procedures. Ratchet handles keep a firm hold of tissue.

Model	Description	Model	Description
140-900	1/4 Curved, 9"	140-812	5x6 Teeth, 10"

IUD REMOVAL

SERPENTINE GRASPER

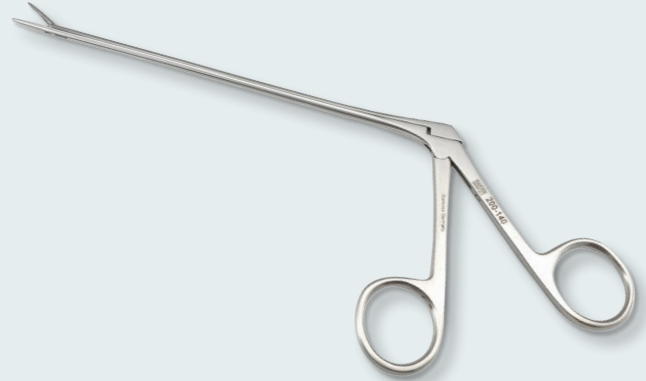

Malleable

Serpentine Grasper for IUD removal has a squeeze handle to open and close the teeth of the grasper. Malleable shaft facilitates a more versatile approach to IUD removal.

Model	Description
★ 295-800	8" Working Length, Malleable

NOYES GRASPER

Model	Description
160-047	8"
160-048	9"

DRESSING & TISSUE FORCEPS

POTTS-SMITH DRESSING

Finer-tipped version dressing forceps with serrated jaws. Potts-Smith dressing forceps are used to grasp dressings, gauze, sponges and tissue.

Model	Description
120-156	8-1/4", Serrated
120-158	9-1/2", Serrated

POTTS-SMITH TISSUE

Finer-tipped version tissue forceps used for grasping and manipulating tissue. Can be used to stabilize tissue while suturing.

Model	Description
120-162	8-1/4", 1x2 Teeth
120-164	9-1/2", 1x2 Teeth

DRESSING

A common and versatile forceps with serrated jaws. Dressing forceps are used to grasp dressings, gauze, sponges and tissue.

Model	Description
120-014	8", Serrated
120-016	10", Serrated

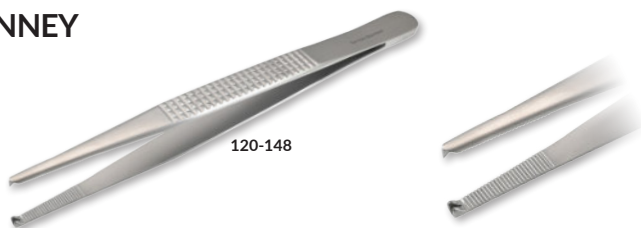

TISSUE

A common forceps used for grasping and manipulating tissue. Can be used to stabilize tissue while suturing.

Model	Description
120-048	8", 1x2 Teeth
120-050	10", 1x2 Teeth

BONNEY

Model	Description
120-148	7", 1x2 Teeth & Serrated Tips
120-150	7", 2x3 Teeth & Serrated Tips
540-150	7", 1x2 Teeth & Serrated Tungsten Tips

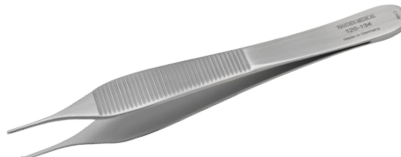

ADSON DRESSING

The most common forceps for dressings and gauze. Usually referred to as thumb forceps with serrated tips.

Model	Description
120-117	4-3/4", Serrated

ADSON TISSUE

The most common forceps for tissue grasping. Usually referred to as thumb forceps or "rat tooth" forceps with 1x2 teeth.

Model	Description
120-134	4-3/4", 1x2 Teeth

ADSON-BROWN TISSUE

A common forceps for tissue grasping. These offer a longer gripping surface with 9x9 dual teeth along the tip of the instrument.

Model	Description
120-124	4-3/4", 9x9 Fine Teeth

SCISSORS

MAYO

A thicker scissors used for cutting tissue, gauze and other materials. Mayo scissors with standard beveled blades are great all around utility scissors.

Model	Description
100-120	5-1/2", Straight
100-122	5-1/2", Curved
100-124	6-3/4", Straight
100-126	6-3/4", Curved
100-128	9", Straight
100-130	9", Curved

IRIS

Small scissors used for cutting suture. Sharp pointed tips allow the blades to cut suture of any size.

Model	Description
100-304	4-1/2", Straight
100-306	4-1/2", Curved

METZENBAUM

Fine round tips with a long and narrow shaft make the Metzenbaum scissors ideal for cutting IUD strings, suture and for performing other procedures that require a finer cutting blade.

Model	Description	Model	Description
100-179	5-1/2", Straight	100-183	8", Straight

100-018	6-1/2", S/B		

NEEDLE HOLDERS

MAYO-HEGAR

Thick tipped needle driver for use with larger needles or sutures that require more force to pass through tissue.

Model	Description
160-044	6-1/4", Serrated
160-046	7", Serrated
160-047	8", Serrated
160-048	9", Serrated

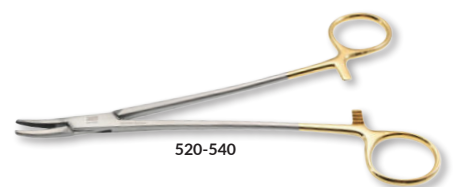

CRILE-WOOD

Thin finer tipped needle holder for smaller sutures. Crile-Wood needle drivers have long and thin shanks.

Model	Description
160-050	6", Serrated
520-100	6", Serrated Tungsten Jaws
160-051	7", Serrated
520-118	7", Serrated Tungsten Jaws

HEANEY

Needle driver with thick, curved tips allow the person suturing a different approach and angle to introducing a suture needle.

Model	Description
160-100	8-1/4", Curved Serrated Jaws
520-540	8-1/4", Curved Serrated Tungsten Jaws

STAINLESS STEEL SPECULA

Excellent Visibility and Access

Designed for patient comfort, our wide variety of high quality specula meets your practice and patient exam needs. Also available in a non-conductive coating for electrosurgical LLETZ / LEEPS procedures (see pages 32-33) and a non-reflective coating for laser procedures (page 35).

CUSTOM MARKING

Ask about custom marking your instruments to help better identify the correct clinic, minimize loss and ultimately save money.

HSG & SHG CATHETERS

HSG SONO CATHETERS

Ideal for Hydrotubation, Salpingoplasty and Hysterosalpingography. HSG catheter sets can be used for sonohysterography and hysterosalpingography procedures that greatly enhance the analysis of uterine pathology. Using HSG balloon catheters, the procedures are simple and non-traumatic for your patients. A placement sheath eliminates the need for a tenaculum. HSG catheters are designed for single patient use only.

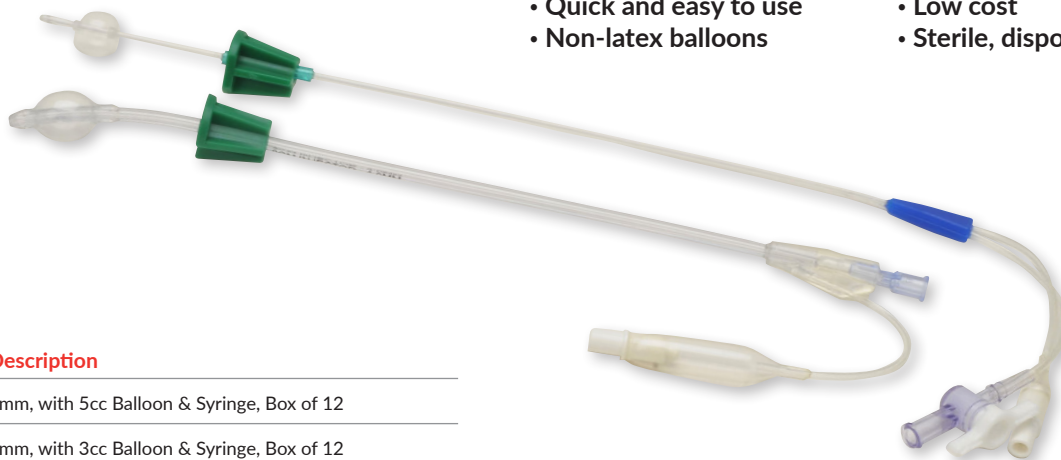

- Quick and easy to use
- Latex free product
- Low cost
- Sterile, disposable

Model	Description
★ HM6050	5 Fr., with 3cc Balloon & Syringe, Box of 10
HM6070	7 Fr., with 5cc Balloon & Syringe, Box of 10

DISPOSABLE UTERINE INJECTOR

- Quick and easy to use
- Non-latex balloons
- Low cost
- Sterile, disposable

Model	Description
HM1152	4mm, with 5cc Balloon & Syringe, Box of 12
HM1153	2mm, with 3cc Balloon & Syringe, Box of 12

HSG PROCEDURE KIT

HSG PROCEDURE KIT

Ideal for various gynecologic procedures in the office setting, including Hydrotubation, Salpingoplasty and Hysterosalpingography. Disposable and very cost effective. All items are packaged in a sterile tray.

Tray Contents:

- (1) Vaginal speculum
- (3) Providone-iodine ointment
- (1) Surgical lubricant
- (2) Providone-iodine solution
- (1) Fenestrated drape
- (4) Gauze pads 4 x 4"
- (1) CSR wrap (30 x 30")
- (1) 20cc syringe
- (2) 8" Sponge swab
- (1) 20" Extension tube
- (1) Sanitary napkin
- (1) Cervical Os finder
- (1) Inner tray for providone-iodine solution
- (1) Intra-uterine sound

Model	Description
HM6080	HSG Procedure Set, Disposable, Individually Sterile, Box of 10

ROCKET® DUO™ IUI CATHETER

Rocket Medical DUO™ IUI Catheters are the latest generation of two part insemination catheters designed to improve ease of insertion and minimise uterine trauma

DUO™

Outer: HDPE, 5 x 1cm marking from distal tip.

Inner: Polyurethane OD: 1.4 mm, ID: 0.9 mm, fully domed, dual side eye.

Inner Catheter volume: 18cm: 0.5ml, 23cm: 0.63ml

- Two part construction IUI with smooth outer sheath with high memory characteristics ensures ease of insertion, particularly in those patients where access to the external os is difficult.
- Soft inner IUI with fully domed distal tip and dual side eyes for optimum insemination.
- Competitively priced to provide excellent value in routine IUI.
- Sterile for single use, packed in cartons of 25 units.

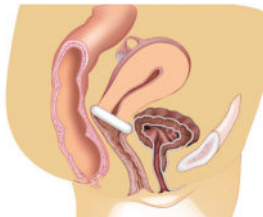

Model	Description
R57625	DUO™ IUI Catheter 18cm, Box of 25

SILICONE PESSARIES

Most Popular Sizes
Shaded In Gray

RING

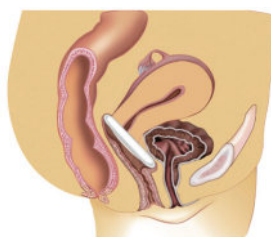

Available in ten sizes, both with and without support, this is a very common pessary for a first to second degree prolapse. The Ring with support can also be used on an accompanying cystocele. Insertion is eased with the folding action of the Ring.

With Support		Without Support

86.0mm	22.5mm	28.0mm
78.0mm	19.5mm	23.0mm
75.0mm	12.5mm	17.0mm

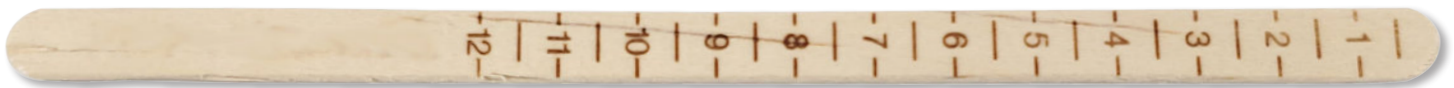

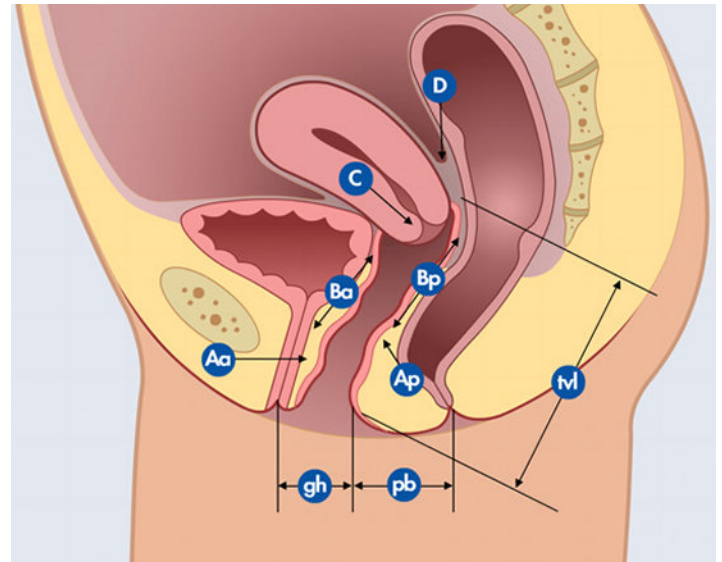

VAGINAL-HYMENAL

Model	Description	
PDS-C	Large Set of Four	
Length	OD Small	OD Large
150.0mm	30.0mm	38.0mm
138.0mm	25.5mm	22.0mm
128.0mm	22.5mm	28.0mm
120.0mm	19.5mm	24.0mm

POP-Q EXAM STICKS

The pelvic organ prolapse quantification (POP-Q) exam is used to quantify, describe, and stage pelvic support.

- There are 6 points measured at the vagina with respect to the hymen
- Points above the hymen are negative numbers; points below the hymen are positive numbers
- All measurements except tvl are measured at maximum valsalva

Model	Description
★ 222-222	Pop-Q Sticks, Bag of 50

Point	Description	Range of Values
Aa	Anterior vaginal wall 3 cm proximal to the hymen	-3 cm to +3 cm
Ba	Most distal position of the remaining upper anterior vaginal wall	-3 cm to +tvl
C	Most distal edge of cervix or vaginal cuff scar	
D	Posterior fornix (N/A if post-hysterectomy)	
Ap	Posterior vaginal wall 3 cm proximal to the hymen	-3 cm to +3 cm
Bp	Most distal position of the remaining upper posterior vaginal wall	-3 cm to +tvl

Genital hiatus (gh) – Measured from middle of external urethral meatus to posterior midline hymen

Perineal body (pb) – Measured from posterior margin of gh to middle of anal opening

Total vaginal length (tvl) – Depth of vagina when point D or C is reduced to normal position

POP-Q Staging Criteria	Description
Stage O	Aa, Ap, Ba, Bp = -3 cm and C or D ≤ - (tvl - 2) cm
Stage I	Stage 0 criteria not met and leading edge < -1 cm
Stage II	Leading edge ≥ -1 cm but ≤ +1 cm
Stage III	Leading edge > +1 cm but < + (tvl - 2) cm
Stage IV	Leading edge ≥ + (tvl - 2) cm

LLETZ / LEEPS ELECTROSURGICAL UNIT AND SMOKE EVACUATOR

We've combined our ESU package with our superb smoke evacuation system and our latest mobile stand technology to produce a compact, mobile system for the clinic or hospital. As an added benefit, we included a loop electrode kit (5 of our most popular loops) and ten smoke evacuator tubing sets for attaching a vaginal speculum to create the best GYN system on the market today.

ELECTROSURGICAL UNIT

The Hayden ESU (LA1250S) is the affordable solution for the busy physician office or specialty facility. The multi-purpose unit features a modern push button design and is capable of most monopolar and bipolar surgical procedures. The Hayden ESU offers 5 energy outputs with up to 120 watts of power; modalities include Cut, Blend, Coagulation, Fulguration and Standard Bipolar. The unit is designed with dependable safety features like BovieNEM™ (Neutral Electrode Monitoring) pad sensing technology, BovieDED™ (Digital Error Detection), audible alert tones and self-test circuits. The Hayden ESU satisfies the physician's electrosurgical needs with safety, reliability and convenience.

SMOKE EVACUATOR

A modern, light-weight, compact design allowing for simplified use, storage and stack-ability. The Extended-Life Filter (LA6079) offers up to 35 hours of performance reducing procedure cost by ~38% from the previous model, when used at the lowest setting. Covered 3-port filter design accommodates a variety of tubing sizes [1/4"(6.4mm), 3/8"(9.5mm), and 7/8"(22mm)] providing versatility in procedure and accessory setup. The ultra-quiet design offers the same excellent performance with less noise.

INSTRUMENTS FOR LASER

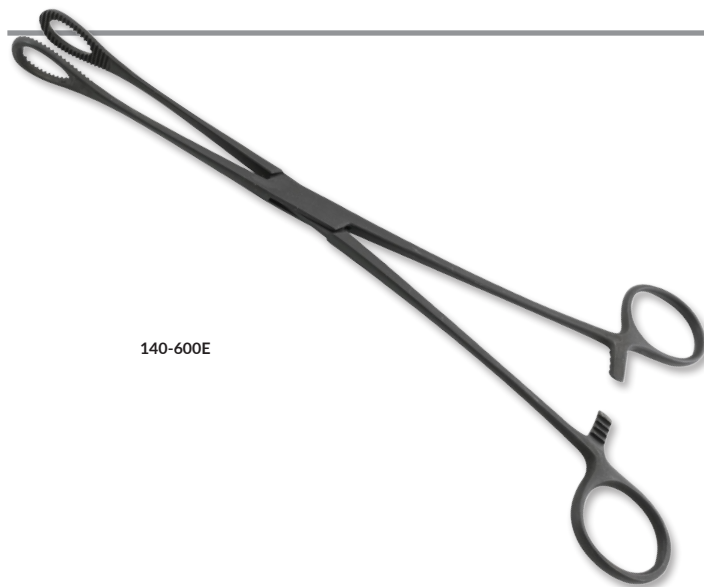

Ebonized instruments feature a durable, black coating for use in laser surgery procedures. The ebonized finish is designed to absorb stray energy and reduce reflection, thus reducing the risk of injury by laser. Most instruments, including ones not shown ebonized here, can be ebonized for use in laser surgery cases.

LATERAL WALL RETRACTORS

Model	Description
315-611E	Closed Shanks, 2-1/4" Medium Blades

295-502E	Kogan Narrow 3mm, with Ratchet

OB DOPPLERS

OBSTETRIC DISPLAY DOPPLERS

Display Doppler

The D-700 Digital Display obstetric doppler provides a large, bright, back lit display of the heart rate. The display also indicates battery, volume, and signal strength status. The powerful digital processor in the DigiDop utilizes Digital Signal Clarity - DSC to eliminate background noise and amplify a strong clear signal. True auto-correlation calculates a fast, accurate pulse rate.

Model	Description
D-700-D2	Handheld Digidop 700, Display, with 2MHz Obstetrical Probe
D-700-D3	Handheld Digidop 700, Display, with 3MHz Obstetrical Probe
D-700R-D2	Handheld Digidop 700, Display, with 2MHz Obstetrical Probe, Rechargeable
D-700R-D3	Handheld Digidop 700, Display, with 3MHz Obstetrical Probe, Rechargeable

OBSTETRIC NON-DISPLAY DOPPLERS

Non Display – Audio Only

These audio only Dopplers provide great value if all you need is to hear the Doppler sounds loud and clear. They include a display of battery condition, signal strength, and volume setting, but do not have a heart rate display.

Model	Description
D-330-D2	Handheld Digital Doppler, Non-Display, with 2MHz Obstetrical Probe
D-330-D3	Handheld Digital Doppler, Non-Display, with 3MHz Obstetrical Probe
D-330R-D2	Handheld Digital Doppler, Non-Display, with 2MHz Obstetrical Probe, Rechargeable
D-330R-D3	Handheld Digital Doppler, Non-Display, with 3MHz Obstetrical Probe, Rechargeable

PROBES

All DigiDop obstetrical probes provide the sensitivity and reliability you need. All probes will work on all DigiDops for maximum versatility. Our 2 and 3 MHz obstetrical probes utilize our exclusive eXtended Depth - XD™ technology that has increased sensitivity at closer depths without sacrificing it at deeper depths. These probes create more than six times as much signal at some depths that other probes. All our OB probes have a smooth contour design that is comfortable to hold, comfortable for the patient, and easy to clean.

- 2 MHz probes provide excellent deep penetration for late term pregnancy or larger patients.
- 3 MHz probes are especially sensitive to early fetal hearts but can also be used throughout the pregnancy.
- Both 2 and 3 MHz probes are available in water proof versions for water-assisted labor and delivery. These waterproof probes can be removed from the DigiDop and replaced with a standard probe.
- A variety of vascular probes can be interchangeably used with any of the DigiDops.

COLPOSCOPES

CENTER POST ZOOM

A compact Center-Post Colposcope with unique, continuous zoom magnification and sharp focusing for crisp 3-D imaging. The unit is excellent for the facility performing gynecological exams where millimeters matter.

Model	Description
HCS-205LED	Binocular Zoom Center Post Colposcope
HCS-205T-LED	Camera Ready Zoom Center Post Colposcope
HCS-205T-HD	HDMI Video Zoom Center Post Colposcope

Camera-Ready Trinocular Head with Camera Mount

CENTER POST TRIPLE MAG

This Triple Magnification, LED Illuminated Center-Post Colposcope is designed to be simple and easy to use, featuring brilliant, sharp optics and three magnification settings: 3.75x, 7.5x and 15x. Changing magnification is a simple rotation of the knob, and the colposcope maintains focus. The state of the art LED illumination provides bright, white light that will not burn out, or burn too hot! Available with a wheeled or pedestal base.

SWING ARM ZOOM

Perfect for the GYN performing both exams and procedures. The swing-arm design allows easy access to the vaginal canal during procedure aiding procedure efficiency.

Model	Description
HCS-103LED	Binocular Zoom Swing Arm Colposcope
HCS-103T-LED	Camera Ready Zoom Swing Arm Colposcope
HCS-103T-HD	HDMI Video Zoom Swing Arm Colposcope

Model	Description
★ HCS-305	Binocular Triple Magnification Center Post Colposcope

All Colposcopes Include:

7 Years Limited Warranty • 1 Year on Electrical System (Excludes Bulbs and Fuses) • Dust Cover, Power Cord, Manual & Tool Kit

CRYO SYSTEMS

Fast, precision freeze and thaw control. Our one and two-trigger systems provide precise control and a large selection of highly conductive reusable cryotips and disposable plastic shields are available.

LL100™ SYSTEM (N2O)

Two-trigger design and twice the freeze power of other systems, this exclusive two-trigger cryosurgical system delivers fast and precise freeze/defrost control and allows cryotips to be changed at any time without venting.

- Large selection of cryotips and disposable plastic shields available
- More effective freeze/defrost in less time

- Lightweight, well-balanced, and maneuverable
- Freeze and defrost only when triggered

Model	Description
W900001	LL100 Cryosurgical System, N2O (Freezer Only)
W900160	LLCO2 Cryosurgical System, CO2 (Freezer Only)
HM019011A	British Adapter Assembly for N2O

WA1000B™ CRYO CONSOLE SYSTEM

Uses LL100™ two-trigger or LLCO2™ single-trigger freezers

- High-performance features and easy-to-use controls
- Temperature indicator with integrated timer for precise documentation
- Cart carries a single 20 lb. cylinder
- Large selection of cryotips and shields

LLCO2™ SYSTEM

Single-trigger design is optimized for CO2 gas. The LLCO2 single-trigger cryosurgical system maximizes temperature and minimizes the clogging and sputtering commonly associated with CO2 gas.

- Squeeze trigger to freeze; release to defrost
- Use with medical-grade CO2 gas for optimal performance
- Use with standard cryotips with disposable plastic shields

Model	Description
W900506-1-N2O	WA1000B Cryosurgical Console, Blank N2O LL100
W900506-1-CO2	WA1000B Cryosurgical Console, Blank CO2 LL100
W900506-2-N2O	WA1000B Cryosurgical Console, Digital Temp. (N2O) Indicator, Timer, Base and LL100
W900506-2-CO2	WA1000B Cryosurgical Console, Digital Temp. (CO2) Indicator, Timer, Base and LLCO2

Both the LL100 and the LLCO2 are available in three-tip package specials for additional savings. Choose three cryotips from our comprehensive offerings when ordering. We recommend the T-1905, T-2514, and T-0500 for GYN procedures and the T-0524, T-0219, and T-1900 for general/family practice procedures. Call Hayden Medical customer service for more information.

HE18-2337	Scissors, Single Action, Semi-Rigid, 5Fr., 40cm

Other instrument options are available.

Cameras, Light Sources & Monitors Also Available.

LED LIGHT SOURCES

50W LED LIGHT SOURCE

Model

LS-200LED

- 50w solid state LED light, lumen output comparable to 150w halogen
- Compact, efficient, durable "daylight" light
- Color temperature: 6500° K nominal
- Typical LED life: >50,000 hours
- Multi turret ports are ACMI, Olympus, Storz, and Wolf
- Accepts 100-240V AC, 50/60 Hz input power for worldwide operation
- Dimensions: 4.65"W x 3.32"H x 7.25"D (~10"overall) Weight: 1.14 kg (2.5 lbs.)

LED LIGHT SOURCE (180W XENON EQUIVALENT)

Model

LS-180LED

- Lumen output comparable to 180w Xenon units but more stable and consistent
- Expected LED life of 30,000 hours (15 years @ 40 hrs./week x 50 weeks/year) eliminates costly periodic lamp changes
- Color temperature: 6950°K
- Ergonomically designed turret includes ACMI, Olympus, Storz, & Wolf ports LED automatically shuts off when cable is removed from active port
- Accepts 100-240V AC, 50/60 Hz input power for worldwide operation
- Dimensions: 11"W x 4.5"H x 11"D Weight 3.4kg (7.5 lbs.)

LED LIGHT SOURCE (300W XENON EQUIVALENT)

Model

LS-300LED

- Lumen output comparable to 300w Xenon units but more stable and consistent
- Expected LED life of 30,000 hours (15 years @ 40 hrs./week x 50 weeks/year) eliminates costly periodic lamp changes
- Color temperature: 6500°K @ 75 CRI or 5600°K @ 92 CRI
- Accepts 100-240V AC, 50/60 Hz input power for worldwide operation
- Dimensions: 11"W x 4.5"H x 11"D weight 3.4kg (7.5 lbs.)

DOCTOR'S STOOL

DOCTOR STOOL WITH AIRLIFT & BACK REST

- Extra-Large, Fully Rotating Seat: 15" Diameter; larger than most seats
- Adjustable Pneumatic Height Range: 17" to 23" (ADA compliant)
- NEW Soft Polyurethane Wheels: Maneuvers smoothly over hardwood floors and carpets
- 4" of our Exclusive Small Cell™ Foam: Delivers superior comfort through the years
- Extra Large, Steel Seat Mounting Plate: 2x Larger than other stools; maintains durability and safety
- Hypoallergenic, CFC-free, oil & waterproof upholstery

MIYAZAKI INSTRUMENTS

MIYAZAKI ALL-PURPOSE RETRACTOR™

MIYAZAKI SACROPEXY RETRACTOR™

Model	Description
★ 254-630	Includes 10' Light Cable
254-636	Replacement Light Cable, Olympus connection

Model	Description
254-632	Includes 10' Light Cable
254-636	Replacement Light Cable, Olympus connection

MIYAZAKI TACK DRIVER

The Miyazaki Tack Driver Set™ facilitates easier placement of the Hemorrhage Occluder Pin.

Model	Description
★ 335-195	Miyazaki Tack Driver™
335-198	Miyazaki Mallet

HEMORRHAGE OCCLUDER PIN

Made of Titanium and designed to control presacral hemorrhage during pelvic surgery. Life saving and cost effective, the Hemorrhage Occluder Pin is a must for any operating room performing surgery near the sacrum. The ribbed shaft (7mm depth) ensures secure placement to prevent withdrawal or migration.

Model	Description
335-201	Sterile Titanium Pin, Each
335-202	Sterile Titanium Pin, Box of 2
★ 335-205	Sterile Titanium Pin, Box of 5

MIYAZAKI HOOK

The Miyazaki Hook was the first ligature carrier designed specifically for sacrospinous suspension.

Model	Description
335-180	Miyazaki Hook
315-250	Notched Speculum
310-620	Breisky Navratil Retractor, 170 x 25mm
295-570S	Suture Retrieval Hook, Sharp

Z-BEST HYSTERECTOMY CLAMPS

Z-BEST CLAMPS™ FOR HYSTERECTOMY

- Non slipping
- Non perforating
- Non crushing

CUSTOM MARKING

Ask about custom marking your instruments to help better identify the correct clinic, minimize loss and ultimately save money.

ZBCA-24

Z-Best Hysterectomy Clamps™ with gold handles are the gold standard. The longitudinal atraumatic jaw design folds the tissue rather than biting, puncturing or perforating the tissue like most other hysterectomy clamps do. The result is minimal bleeding and no slippage. The GYN Oncologist prefers this atraumatic jaw design when clamping delicate friable tissue because it holds better than the traditional Heaney, Ballentine, Rogers or Masterson designs. Whether working deep in the pelvis on obese patients or a routine hysterectomy, use the clamp that doesn't slip.

VAGINAL CUFF CLAMP

Z-BEST IFP CLAMP™

Model	Description
ZBIFP-11	11" (28cm), S-Curved
ZBIFP-13	13" (33cm), S-Curved

The Z-Best IFP Clamp™ is perfectly shaped to reach high into the pelvis during vaginal hysterectomy salpingo-oophorectomy (BSO). The 70mm jaw length allows clamping of the infundibular pelvic ligament and round ligament simultaneously. The 11" length will work for the majority of your patients while the 13" length will also accommodate larger patients. The S-Shaped shanks allow the surgeon's hands to be out of the way during surgery.

ZBIFP-11

PELVIC SURGERY INSTRUMENTS

Z-BEST SCISSORS™ FOR HYSTERECTOMY

Z-Best Hysterectomy Scissors™ are a complete set of TC Parametrium scissors designed to match the Z-Best Hysterectomy Clamp™ jaw curvatures. The Z-Best Scissors™ have tungsten carbide blades with one blade serrated. The result is a scissors that stays sharper longer, allowing the surgeon to cut with the tip of the blades without the tissue slipping out of the blade tips. Don't settle for your existing scissors. Try Z-Best Scissors™ today.

Hayden Medical, Inc. has a wide variety of hysterectomy instruments. The instruments you see here are the daily tools of GYN Oncologists and Pelvic Surgeons.

ZBSD-45	18" (45cm)

NOLAN NEEDLE HOLDER

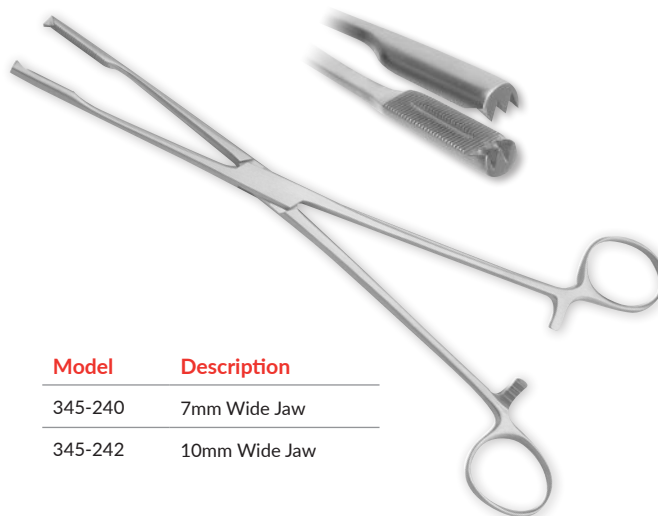

The unique extended boxlock design and thicker shanks minimize twisting of the needle holder. The needle stays secure in the tungsten carbide jaws and does not move around haphazardly during suturing. The extended boxlock on the longer length Nolan's increase safety and reduce O/R time during deep pelvic cases.

Model	Description
520-865	10" Straight TC Jaw
520-870	12" Straight TC Jaw
520-870XL	14" Straight TC Jaw
520-870XXL	16" Straight TC Jaw
520-871	12" Curved TC Jaw
520-871XL	14" Curved TC Jaw
520-871XXL	16" Curved TC Jaw

KROBACH TISSUE CLAMP

The 10" long Krobach Tissue Clamp is ideal to grasp the posterior vaginal wall and perianal tissue when dissecting in the pararectal space.

Model	Description
345-240	7mm Wide Jaw
345-242	10mm Wide Jaw

PELVIC SURGERY INSTRUMENTS

MD ANDERSON CLAMP

The MD Anderson Clamp is ideal for clamping adnexal tissue during hysterectomy. Its delicate blunt tip is ideal for dissecting around the ureters during pelvic surgery. The longitudinal atraumatic serrations of the slightly curved jaw add a margin of safety from accidental ureter trauma.

Model	Description
345-125	10"
345-128	11"
345-128XL	14"
345-128XXL	16"

CLARK CLAMP

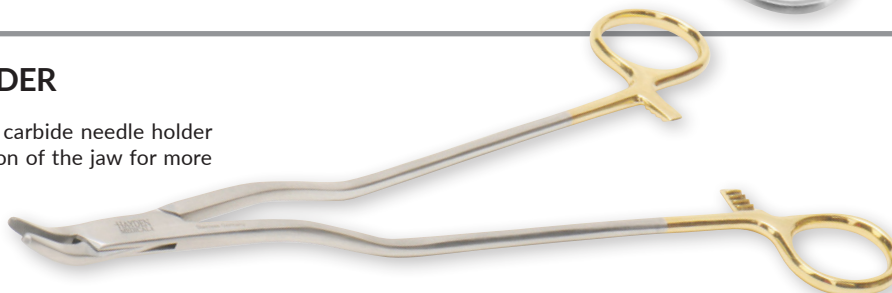

The Clark Clamp side curve is ideal for tunneling around ureters during pelvic surgery. The atraumatic longitudinal serrations increase the margin of safety from accidental ureter damage.

Model	Description
345-021	8-3/4"
345-022	12"
345-022XL	14"
345-022XXL	16"

BOZEMAN-HEANEY NEEDLE HOLDER

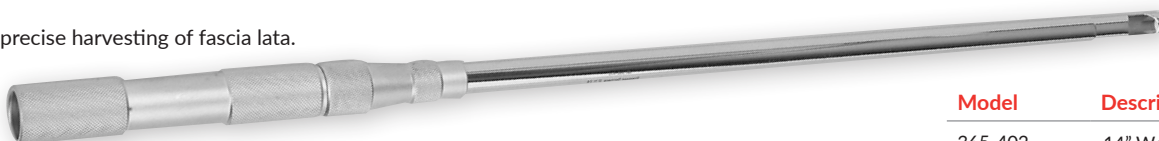

The offset shaft on the Bozeman-Heaney tungsten carbide needle holder minimizes torquing and allows for better visualization of the jaw for more accurate needle placement.

Model	Description
520-646	10-1/2"

FASCIA HARVESTER

Designed for precise harvesting of fascia lata.

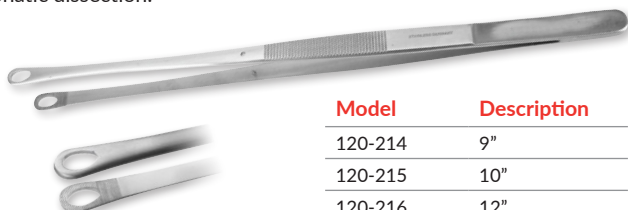

Model	Description
365-402	14" Working Length

Singley and Russian forceps have a broad, serrated tip and are most useful in grasping thicker vascular tissues such as myometrium, when the toothed instrument may cause penetration and bleeding.

SINGLEY TISSUE FORCEPS

Fenestration is ideal in atraumatic handling of tissue bundles during lymphatic dissection.

Model	Description
120-214	9"
120-215	10"
120-216	12"

RUSSIAN TISSUE FORCEPS

Russian forceps have a large atraumatic grasping surface for heavy or thick tissue.

Model	Description
120-144	8"
120-145	10"
120-146	12"

PELVIC SURGERY INSTRUMENTS

MCCALL STYLE UTEROSACRAL CLAMP

The McCall style pedicle clamp is specifically shaped to firmly grab the uterosacral pedicle while positioning suture. Solid jaws disallow inadvertent suturing of the clamp to the ligament.

Model	Description
345-252	9"

HULKA UTERINE MOBILIZER TENACULA

	11-1/4" (28.1cm)
Model	Description

HAYDEN-TRAC™ SETS

Complete Table-Mounted Retractor Sets from Hayden Medical offer comprehensive solutions for your operating room. Custom accessories can also be added if required by your surgeon.

HAYDEN-TRAC™ 24" BARIATRIC SET

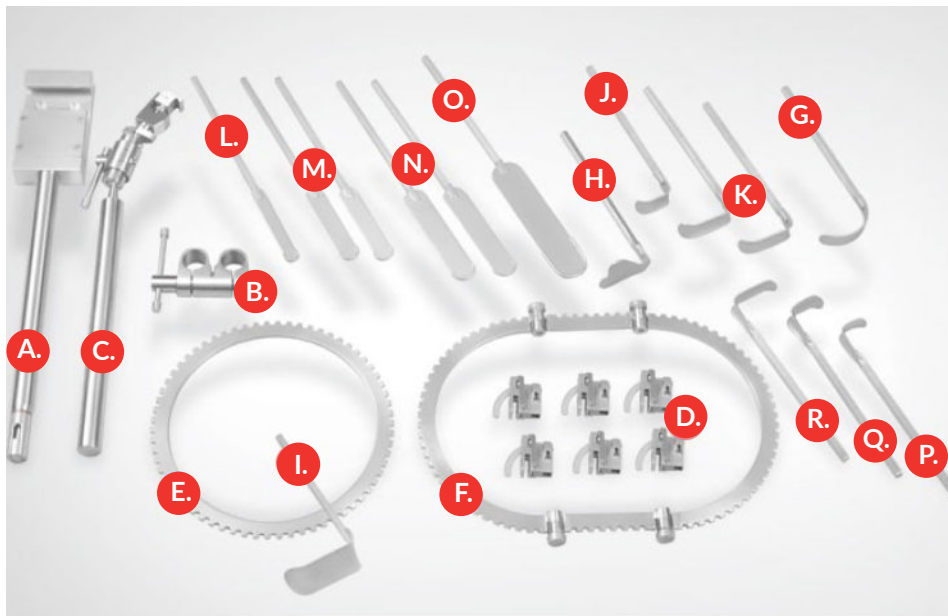

This Hayden-Trac™ Bariatric Set is ideal for more obese patients. With an even taller 24" Field Post / Table Clamp it works as a complete stand alone system for the purpose of surgery on larger patients.

	Model	Description
	108-006	Bariatric Set (Includes below)
A.	108-102	Table Post 24"
B.	108-114	1" Post Coupler
C.	108-113	Horizontal Bar
D.	108-120	Ratchet Bar Extender
E.	108-128	Tilt Ratchet Mechanism (6 ea.)
F.	108-126	Twister Ratchet Adapter
G.	108-142	Medium Oval Ring
H.	108-219	Balfour Retractor 2-3/4" x 3-3/8"
I.	108-268	Harrington Retractor 3-1/2" x 10"
J.	108-366	Kelly Retractor 2" x 3" (2 ea.)
K.	108-368	Kelly Retractor 2" x 4"
L.	108-376	Kelly Retractor 2" x 8"
M.	108-632	Malleable Retractor 4" x 8"
N.	108-562	Malleable Retractor 2" x 10"
O.	108-612	Malleable Retractor 3" x 10"

HAYDEN-TRAC™ PEDIATRIC SET

The Hayden-Trac™ Pediatric Set can be used effectively on small size and younger patients with it's smaller rings and blades to match specific needs. It is useful for almost all general surgeries such as abdominal aortic aneurysms, hysterectomies, appendectomies, hernia repairs, iliac femoral grafts, nephrectomies, retroperitoneal resections, and transplants.

	Model	Description
	108-005	Pediatric Set (Includes below)
A.	108-101	Table Post 12"
B.	108-114	1" Post Coupler
C.	108-112	Horizontal Flex Bar
D.	108-128	Tilt Ratchet Mechanism (6 ea.)
E.	108-130	Small Round Ring
F.	108-150	Small Segmented Ring
G.	108-737	Deaver Retractor Blade 2/3" x 2-1/4"
H.	108-249	Harrington Retractor 2" x 2-1/2"
I.	108-361	Kelly Retractor 2" x 1-1/2"
J.	108-322	Kelly Retractor 1" x 2-1/2"
K.	108-321	Kelly Retractor 1" x 3" (2 ea.)
L.	108-500	Malleable Retractor 1/2" x 4"
M.	108-510	Malleable Retractor 3/4" x 4" (2 ea.)
N.	108-512	Malleable Retractor 1" x 5" (2 ea.)

P.	108-720	Richardson Retractor 3/4" x 1"
Q.	108-724	Richardson Retractor 1" x 1-1/4"
R.	108-722	Richardson Retractor 3/4" x 2"

HAYDEN-TRAC™ SETS

HAYDEN-TRAC™ VAGINAL SET

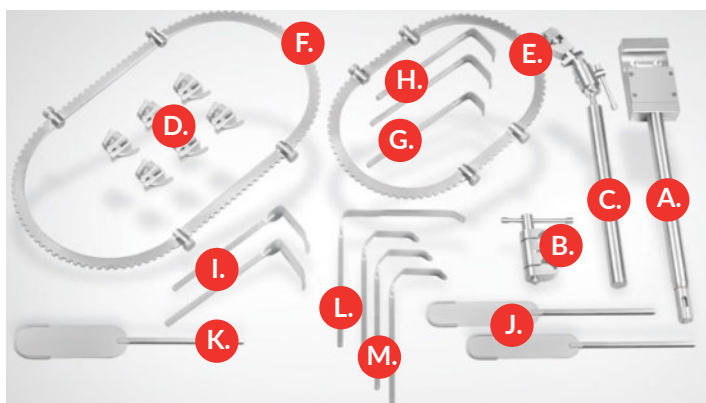

The Hayden-Trac™ Vaginal Set has been a popular kit for gynecology. It features an egg shaped fixed ring with 20° angle for proper positioning. Depending upon the procedures the 5 suggested blades provide maximum exposure of the surgical site.

Model	Description
★ 108-009	Vaginal Set (Includes below)
A. 108-101	Table Post 12"
B. 108-114	1" Post Coupler
C. 108-112	Horizontal Flex Bar
D. 108-128	Tilt Ratchet Mechanism (4 ea.)
E. 108-183	Vaginal Offset Retractor Ring 8" x 10-1/2"
F. 108-740	Deaver Retractor Blade 1" x 3-1/2"
G. 108-744	Deaver Retractor Blade 1" x 5"
H. 108-420	Magrina Style Lateral Vaginal Retractor 1" x 3" (2 ea.)
I. 108-421	Magrina Style Lateral Vaginal Retractor 1" x 4-1/2"

HAYDEN-TRAC™ UROLOGY SET

The Hayden-Trac™ Urology Set is customized for abdominal and or perineal approaches to the bladder, kidneys, ureters and other organs. A variety of 12 blades offer suitable exposure opportunities. 2 segmented rings permit 8 ring size configurations and virtually unlimited ring angles, for different shapes and sizes of patients.

Model	Description
108-008	Urology Set (Includes below)
A. 108-101	Table Post 12"
B. 108-114	1" Post Coupler
C. 108-112	Horizontal Flex Bar
D. 108-128	Tilt Ratchet Mechanism (8 ea.)
E. 108-150	Small Segmented Oval Ring
F. 108-152	Medium Segmented Oval Ring
G. 108-320	Kelly Retractor 1" x 1-1/2"
H. 108-322	Kelly Retractor 1" x 2-1/2" (2 ea.)
I. 108-364	Kelly Retractor 2" x 2-1/2" (2 ea.)
J. 108-534	Malleable Retractor 1/2" x 6" (2 ea.)
K. 108-554	Malleable Retractor 2" x 6"
L. 108-449	Wylie Renal Vein Retractor 1" x 7"
M. 108-420	Magrina Style Vaginal Retractor 1" x 3" (3 ea.)

HAYDEN-TRAC™ RECTAL SET

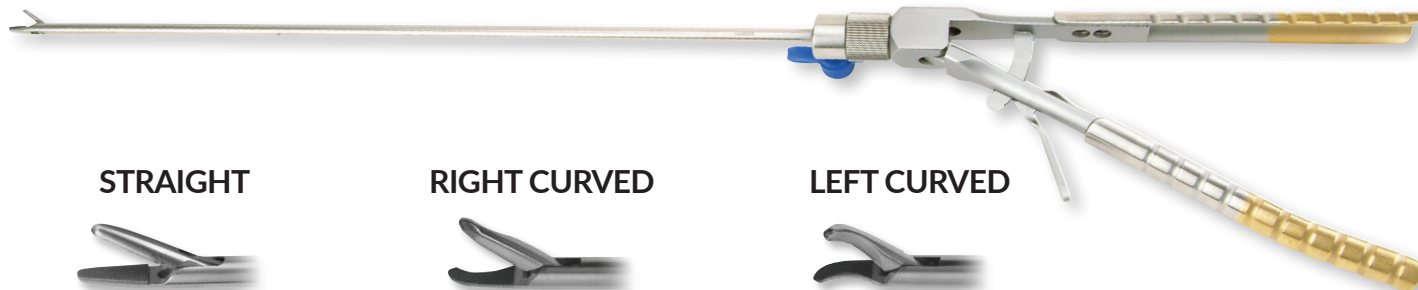

The Hayden-Trac™ Rectal Set is a complementary add on to meet the essential requirements for rectal/trans-anal procedures. Small round ring allows convenient adjustment and repositioning of retractor blades. Small and large blades offer choices for different patients or procedures.

Model	Description
108-007	Rectal Set (Includes below)
A. 108-130	Small Round Ring
B. 108-710	Rectal Retractor 7/8" x 2-7/8" (2 ea.)
C. 108-712	Rectal Retractor 7/8" x 3-7/8" (2 ea.)

LAPAROSCOPIC NEEDLE HOLDERS

The ergonomic ratchet handles and tungsten carbide jaws make these 5mm diameter needle holders well balanced and reliable. The strong jaws hold the needle firmly in place, even at the tip of the jaw.

A			Fascia Closure Set	62	LLETZ Instruments	34	Sims Dilator Sound	18
Acorn Tips	51		Fascia Harvester	46	LLETZ Lateral Wall Retractors	33	Sims Uterine Curette	8
Adapter, Electrosurgical Unit	30		Fiber-optic Cables	43	LLETZ Specula	32-33	Singley (Tuttle) Forceps	46, 52
Adson Forceps	12		Fiber-optic Retractors	43	Loop Electrodes	29	Slide Ratchet Handle Grasper	59
Adson Brown Forceps	12		Filters, Smoke Evacuator	30-31	M		Smoke Evacuator	28
Allis Forceps	10, 35		Fixed Ratchet Mechanism	55	Malleable Retractors	55	Smoke Evacuator Accessories	30-31
Arthroscopes	63		Foerster Sponge Forceps	10, 34-35	Mallet	42	Smoke Evacuator Filters	30-31
Aspiration Needle	61		G		Martin's Arm Retractors	48-49	Smoke Evacuator Tubing	30-31
Atraumatic Grasper	59		Gehrunge Pessary	25	Masson Needle Holder	53	Smoke Tubing Reducer	31
Atraumatic Tenaculum	10		Gellhorn Pessary	24	Mayo Scissors	13	Snake Retractors	50
Auvard Weighted Specula	47		Gellhorn Pessary Fitting Set	26	Mayo-Hegar Needle Holder	11, 13	Sopher Ovum Forceps	17
B			Gomco Circumcision Clamp	21	McCall Uterosacral Clamp	47	Sounds	18
Baby Tischler Biopsy	4, 6-7		Graves Specula	14-16	McCrea Urethral Sounds	20	Specula, Stainless	14-16
Ball Electrode	29		H		MD Anderson Clamps	46, 52	Specula, Laser	35
Bariatric Instruments	52-53		Hank Dilators	19	Metzenbaum Scissors	11, 13	Specula, LLETZ	32-33
Bierer Ovum Forceps	17		Hardy-Duddy Speculum	47	Mini Cervical Dilator Set	19	Sponge Forceps, Laser	35
Biopsy Punch Forceps	4-7		Hasson Graspers	59	Mixer Forceps	53	Sponge Forceps, LLETZ	34
Bonney Forceps	12		Hawkin-Ambler Dilators	20	Miyazaki All-Purpose Retractor	42	Sponge Forceps, Stainless	10, 34-35
Bozeman-Heaney Needle Holder	46		Hayden-Trac Retractor	54-57	Miyazaki Hook	42	Steiner Weighted Speculum	47
Bozeman Uterine Forceps	10		Hayden Uterine Manipulator	51	Miyazaki Sacropepy Retractor	42	Sterilization Basket	48, 62
Braun Tenaculum	10, 34-35		Heaney Needle Holder	13	Miyazaki Tack Driver	42	Sterilization Containers	52, 62
Breisky Harrington Retractor	43		Heaney-Simon Retractor	43	Monsel's Paste	30	Sterilization Trays	62
Breisky Navratil Retractor	42, 47		Hegar Dilators	19	Myoma Forceps	17	Stools	41
Breisky Vaginal Retractors	47		Hemorrhage Occluder Pin	42	Myoma Screw	61	St. Mark's Retractor	43
Burke Biopsy Punch	4, 6		Hodge Pessary	25	N		Syringe, Dental	30
C			Holds Fascia Harvester	46	Needle, Aspiration	61	T	
Carrol Prostatic Retractor	55		Hooks, Laser	35	Needle Extenders	34	Table Clamps	49
Catheters, HSG	22		Hooks, LLETZ	34	Needle Holders	11, 13	Table Mounting Components	54
Catheters, Walther	20		Hooks, Stainless	9	Nolan TC Needle Holder	45	Tactile Probe	61
Cervical Biopsy Forceps	4-7		HSG Procedure Kit	23	No-Scalpel Vasectomy	21	Tenacula, Stainless Steel	10
Cervical Dilators	18-19, 53		HSG Sono Catheters	21	Non-conductive Instruments	30-34	Tenacula, Laser	35
Cervical Hooks	9, 34-35		Hulka Uterine Tenacula	47	Novak Endometrial Curette	8	Tenacula, LLETZ	34
Cervical Tenacula	10, 34-35		Hysterectomy Clamps	44	Noyes Grasper	11	Tenaculum Forceps	10, 34-35
Circumcision Clamps	21		Hysterectomy Scissors	45	O		Tilt Ratchet Mechanism	55
Clark Artery Forceps	46, 53		Hysteroscopy Graspers	40	Operating Scissors	13	Tischler Biopsy Forceps	4, 6-7
Cohen Uterine Manipulator	51		Hysteroscopy Scopes	40, 63	Os Cervical Dilator Set	18	Tissue Forceps	12, 34-35
Colposcopes	37		Hysteroscopy Sheaths	40	Oval Pessary	24	Tissue Forceps, Laser	35
Corson Myoma Grasper	17		I		Oval Pessary Fitting Set	26	Tissue Forceps, Non-Conductive	34
Crile-wood Needle Holder	13		Incontinence Dish Pessary	24	Ovum Forceps	17	Tubing, Smoke Evacuator	30-31
Cryosurgery	38-39		Incontinence Ring Pessary	25	P		U	
Cube Pessary	25		Inflatable Pessary	26	Pederson Specula	14-16	Urethral Dilators, McCrea	20
Cube Pessary Fitting Set	26		Insemination Catheter	23	Pelvic Exam Sticks	27	Urethral Sounds, Dittel	21
Curettes, Endometrial	8		Iris Hook	9, 34-35	Pelvic Surgery Instruments	44-49	Urethral Sounds, Van Buren	21
Curettes, Uterine	8		Iris Scissors	13	Pencils, Electrosurgical	30-31	Urethral Sounds, Walther	20
Curette with Syringe	8		IUD Hooks	11	Pessaries, Silicone	24-26	Urology	20-21
Cystoscopes	63		IUD Instruments	11	POP-Q Stix	27	Urology Retractor Blades	57
D			IUD Scissors	11	Potts-Smith Forceps	12, 34	Uterine Curettes	8
Deaver (Deep) Retractor	43		IUI Catheter	23	Pratt Dilators	19, 53	Uterine Dilators	18-20
DeBakey Forceps	52		J		Preferred Curette	8	Uterine Forceps	10
Denniston Dilator Set	19		Jackson Style Biopsy Forceps	5	Prestige Grasper	59	Uterine Manipulator / Injectors	22, 51
Dental Syringe	30		Jewett Sounds	20	Probes, Laparoscopic	61	Uterine Sounds	18
Dilators, Silicone	26		K		Q		Uterine Tenacula	10, 47
Dilators, Stainless	18-21		Kelly Retractor Blades	55-57	Quick-Connect Retractor	49	V	
Dish Pessary	24		Kevorkian Biopsy Punch	4, 6	R		Vaginal Dilator Sets	26
Dish Pessary Fitting Set	26		Kevorkian Endocervical Curette	7, 8	Rainbow Cervical Biopsy	7	Van Buren Urethral Sounds	21
Disposable Biopsy Punches	17		Kite Retractors	60	Rainbow Endocervical Curettes	7	Vasectomy (No-Scalpel)	21
Disposable Endometrial Samplers	8		Kleegman Dilator	18	Randall Cervical Forceps	10	W	
Disposable Os Dilators	18		Knot Pushers	60	Ratchet Mechanisms	55	Walther Dilators / Catheters	20
Disposable Uterine Manipulators	51		Kogan Endocervical Specula	9, 34-35	Reducer, Smoke Tubing	31	Wavy Atraumatic Grasper	59
Dittel Urethral Sounds	21		Krobach Tissue Clamp	45	Retraction Forceps	59	Weighted Specula	47
Donut Pessary	25		L		Retractor Rings	54-57	Weisman Open-side Specula	16
Dopplers	36		Laparoscopes	63	Retractors	54-57	Wittner Biopsy Punch	5
Dressing Forceps	12, 34-35		Laparoscopic Fan Retractors	60	Returned Goods Policy	2	Word Bartholin Catheter Set	26
Dressing Forceps, Laser	35		Laparoscopic Fascia Closure Set	62	Ring Forceps (Foerster)	10, 34-35	Wylie Retractor	43
Dressing Forceps, LLETZ	34		Laparoscopic Graspers	59	Ring Pessary	24	Y	
E			Laparoscopic Kite Retractors	60	Ring Pessary Fitting Set	26	Yankauer Suction Tube	43
Electrode Pads	30-31		Laparoscopic Knot Pushers	60	Rotating Biopsy Punch	5	Yu-Holtgrewe Retractor	55
Electrode Tip Cleaner	29		Laparoscopic Needle Holders	58	Russian Forceps	46, 52	Z	
Electrodes	29		Laparoscopic Tactile Probe	61	S		Z-Best Hysterectomy Clamps	44, 53
Electrosurgery	30-34		Laparoscopic Uterine Manipulator	51	S-Retractors	61	Z-Best (Mayo) Scissors	45, 53
Electrosurgical Pencils	30-31		Laser Instruments	35	Sacral Tack	42	Z-Best Parametrium Scissors	45, 53
Electrosurgical Unit	28		Lateral Wall Retractors, LLETZ	33	Schroeder Tenaculum	10, 34-35		
Electrosurgical Unit Adapter	30		Lateral Wall Retractors, Stainless	16	Scissors	13, 53		
Emmett Hooks	9, 34-35		Light Cables	43	Scissors, Hysterectomy	45, 53		
Endocervical Curette	7-8		Light Source, LED	41	Scope Holder Attachment	48-49		
Endocervical Specula, Laser	35		Lighted Retractors	43	Serpentine IUD Grasper	11		
Endocervical Specula, LLETZ	34		Liver Retractors	49	Shaatz Pessary	24		
Endocervical Specula, Stainless	9		LLETZ (electrosurgery)	28-34	Silicone Dilator Sets	26		
Endometrial Curettes	8				Silicone Pessary	24-26		
Eppendorfer	5-6
